

Make 'n Take Sheet

Discover How Easy It Is To Make Your Own Assistive Technology!

ABLE
Tech

Hearing Aid/Cochlear Implant Design

Personalize your hearing aid with fun jewels and designs!

Materials:

- Hearing Aid
- Peel on Nail Polish/Nail Foils
- Charms
- Scissors

Make-N-Take price: \$8.00

Directions:

1. First off, remove the battery from your hearing aid and put it in a safe place.
2. Remove your rainbow tube and earmold from the earhook and set aside.
3. Make sure to decorate the visible side.
4. Peel off a sticker of the suitable size and start at the top of the aid, sticking it down (Let the excess be).
5. Line the second sticker with the first as best as you can, and keep doing that.
6. CAREFULLY cut off the excess sticker around the hearing aid.
7. Reattach the rainbow tube and earmold and insert the battery.
8. Attach any charms or other fun accessories.

Oklahoma ABLE Tech, the statewide Assistive Technology Act Program, is funded through the Administration for Community Living of the U.S. Department of Health and Human Services, and maintains coordination and collaboration efforts with partners throughout the State of Oklahoma.
