

AT Category	Device	Description	Accessories
Daily Living	EazyHold 	<p>The EazyHold comes in various sizes and helps to grip a variety of utensils, tools, toys, cups, etc. It can be used to hold any object for better control during play and mealtime activities.</p> <p>The EazyHold is 100% food-grade silicone, non-toxic, latex-free, BPA and Phthalates free, and dishwasher and medical-grade disinfectant wipe safe.</p>	
Daily Living	First Essentials by NUK Tri-Suction Plates 	<p>The First Essentials by NUK Tri-Suction Plates help make mealtime less messy and easier for the child to self-feed. These plates feature three suction cups that keep the plate in place. The divided deep-dish keeps food separated for easy scooping, and has curved edges that helps to guide food onto the spoon.</p>	
Daily Living	ARK's Z-Vibe 	<p>ARK's Z-Vibe® is the ultimate vibrating oral motor tool for speech therapy, feeding therapy, and sensory stimulation. The ARK's Z-Vibe is compact, slim, and easy to use. This device provides tactile oral cues, "wakes up" the mouth sensations, increases oral awareness and tone, decreases mouth stuffing/drooling/oral defensiveness/texture aversions to soothe, calm, and self-organize, to improve focus and concentration, to work on oral motor exercises, and much more.</p>	<p>1 Royal Blue handle, 1 Probe Tip, 1 Preefer Tip, 1 Mini Tip, 1 Hard Spoon Tip, and 1 Soft Spoon Tip</p>
Environmental	Sound Pillow 	<p>The portable, soft corduroy wedge Sound Pillow is used for soothing and calming purposes. The pillow has several sound choices: water, white noise, and a heartbeat. The Sound Pillow can be turned on and off and has two vibration speeds. Simply remove the sound machine from the pillow's interior, choose the preferred sound, and attach a switch for easier access and use.</p>	
Environmental	Mini Fan 	<p>This high-velocity, portable Mini Fan provides a gentle breeze along with soothing auditory stimulation. It can be used in any environment and is extremely useful for children who require extra somatosensory stimuli. The Mini Fan can be coupled with the PowerLink 3 for switch access.</p>	
Environmental	Weighted Vest	<p>The Weighted Vest is worn like a typical piece of clothing providing the body with additional gentle pressure input to the</p>	<p>20 Packs of ¼ lb. Weights</p>

		muscles and joints. The proprioceptive input helps to calm and increase a child's focus. A common weight recommendation for use is 10% of a child's weight. Consult with the child's therapist to ensure appropriate utilization.	
Environmental	Battery Adapter A 	The Battery Adapter A can convert any battery-operated toy or appliance into a switch-activated device for leisure and functional activities at home or in the classroom. Place the copper disc between the battery contact and the battery in the device's battery compartment. Then connect to a switch and the child is ready for play and learning activities. The battery adapter needed will vary by the battery size used in the adapted device. The Battery Adapter A works with battery sizes "AA" and "AAA."	
Environmental	Battery Adapter CD 	The Battery Adapter CD can convert any battery-operated toy or appliance into a switch-activated device for leisure and functional activities at home or in the classroom. Place the copper disc between the battery contact and the battery in the device battery compartment. Then, connect a switch and the child is ready for play and learning activities. The battery adapter needed will vary by the battery size used in the adapted device. The Battery Adapter CD works with battery sizes "C" and "D."	
Environmental	Big Red Switch 	The Big Red Switch, also known as Big Red features a large, 5-inch activation surface and is perfect for children who require a larger surface due to visual or motor abilities. The switch top can be easily removed and replaced with the preferred color of choice. A switch allows a child to access toys, appliances, and electronic devices with the slightest touch.	Instruction Book (Switch is blue.)
Environmental	Cushion Grip Switch 	The Cushion Grip Switch is super-sensitive to touch activation and fits most users' hands. Slip the elastic strap over the child's hand to activate any toy or device using a palmar grasp or rolling it on a tray or tabletop.	
Environmental	Dual Switch Latch and Timer	The Dual Switch Latch and Timer can be used with any pre-adapted device, or can be used with a Battery Adapter (A or CD) to create an adapted toy or appliance. This switch allows a child to	Instruction Book

		access toys, appliances, and electronic devices with the slightest touch of a button. It includes three modes of control that determine the amount of time the appliance operates.	
Environmental	Jelly Bean Switch 	The Jelly Bean Switch, also referred to as Jelly Bean is a button or touch switch designed to control a wide range of electrical toys and battery-operated devices. The switch is sensitive to pressure, requiring less than two ounces of touch. It features a 2 1/2-inch activation surface and is recommended for children who can access a smaller target area.	Instruction Book (Switch is red.)
Environmental	Pal Pad Switch - Mini 	The Pal Pad Switch – Mini, also referred to as Pal Pad is a miniature plate switch that is 1/10 th inch thick and very durable. The Pal Pad measures 2 inches by 2 inches. and requires only 2 ounces of force to activate. This switch allows a child to access toys, appliances, and electronic devices with the slightest touch.	Size – Mini
Environmental	Movement Sensor Switch 	The Movement Sensor Switch is a unique, adjustable switch that is activated by the tiniest movement. Movements in front of the sensor provide momentary, latched, or timed output for accessing toys, appliances, and electronic devices.	
Environmental	PowerLink 3 	A PowerLink 3 enables a child to control toys with single switches. A PowerLink 3 also enables the child to operate more than one device in a sequence or individually. To use this device plug a toy into the power link and add a switch of choice. The PowerLink 3 includes 4 modes of operation: momentary, latched, timed seconds and timed minutes.	Instruction Book
Environmental	Sound Activated Switch 	A Sound Activated Switch allows a child to access toys, appliances, and electronic devices with the slightest sounds. This switch can also be adjusted for the child's sound sensitivity. Choose between three modes: timed mode, on/off mode, and momentary mode.	
Environmental	Specs Switch 	The Specs Switch is a compact, wired switch with a small activation surface. The switch top can be removed and replaced with the preferred color of choice. This switch allows a child to access toys, appliances, and electronic devices with the slightest touch of a	Screwdriver, Flange Base, Strap Base, and Base (Switch is yellow.)

		button. It is small enough to be worn, and is also easy to use as a mounted switch. It includes a space-saving flush base and strap base for mounting on items like a headrest or armrest.	
Environmental	Wobble Switch on Base 	The Wobble Switch on Base allows a child to access toys, appliances, and electronic devices with a swiping action, or any body movement, and returns to its original position when released. The Wobble Switch on Base has a large base with suction cups for secure placement.	
Hearing	BoomWhackers 	Make music with the Constructive Playthings BoomWhacker Tube Set to improve listening development! Hold one or two of these eight tuned percussion tubes and whack them against any hard surface to produce to sounds.	
Hearing	Bright Starts Light & Learn Drum Toy 	The Bright Starts Light & Learn Drum Toy delights children with a musical light display that is set into motion when the child taps the drum. In number mode, the child can count along with the drum beats, and in color mode, lights correspond to the color with every tap of the drum. The handle allows a child to easily hold and carry it. This toy provides a fun way to inspire children to discover cause and effect, numbers, and colors.	
Hearing	Disney Baby Winnie the Pooh Head to Toe! 	Disney Baby Winnie the Pooh Head to Toe has ten sound buttons that name parts of the body and play a sing-along version of Head, Shoulders, Knees, and Toes. Shake your shoulders, touch your toes, and wiggle your nose with Pooh and all his pals with this multisensory reading experience. Work on fine motor skills, listening skills, and build vocabulary.	
Hearing	Ear Suspender Headband 	Ear Suspender Headbands are carefully designed to offer functionality and peace of mind to hearing aid wearers of all types. The Ear Suspender allows adjustability to the silicone hearing aid sleeves and the headband to align the hearing aids perfectly to the ears.	
Hearing	Hearing Aid Clip	Prevent the loss of behind the ear (BTE) hearing aids with the hearing aid clip.	

		<p>The clip is adjustable with a loop for the ear hook and a clothing clip to attach to the shirt for a hearing aids' safety net.</p>	
<p>Hearing</p>	<p>Melissa and Doug Pet Sound Puzzle</p> 	<p>The Melissa and Doug pet puzzle is eye-catching and auditorily fun. This engaging puzzle enhances learning, cognition, and development, listening skills, and fine motor skills. Place a puzzle piece into the puzzle board with the matching picture to hear the animal sounds.</p>	
<p>Hearing</p>	<p>Musical Egg Maracas</p> 	<p>The colorful musical egg maracas fit right in the palm of a child's hand and are filled with beads that rattle with every shake. The egg-shaped maracas make it easy to introduce little ones to rhythm, music, and grasping development.</p>	
<p>Hearing</p>	<p>Pediatric Care Kit</p> 	<p>The Phonak Pediatric Care Kit offers hearing instruments designed with exceptional safety features to protect small children while ensuring optimal performance and putting parents and caregivers at ease. The kit includes a pediatric clip hi holder, drying capsules, battery tester, stickers, Phonak air puffer, drying beaker, listening tube, and four key chain hangers.</p>	
<p>Hearing</p>	<p>Phonak Leo and Book</p> 	<p>Leo, the playful young lion cub, wants to do well in school, excel at sports, and have lots of fun – just like his friends. But in the past, Leo's had some trouble doing these things because of his hearing loss. With his family and audiologist's help, Leo received Phonak hearing aids and a Roger™ system. Now, hearing loss doesn't hold Leo back anymore!</p> <p>"Leo gets hearing aids" and "Leo gets a Roger system" should help your child feel less anxious about their hearing loss, more comfortable with their hearing systems, and better able to explain their hearing loss to others.</p>	
<p>Hearing</p>	<p>Rattle Rainmaker</p>	<p>The rattle rainmaker stimulates the senses with vibrant falling beads and soothing raindrop sounds. This rainmaker is easy to grip and transitioned into a shake and rattle</p>	

		<p>activity. The rainmaker encourages children to develop rhythmic and melodic abilities as they discover the world of music at their fingertips.</p>	
<p>Learning/Cognition</p>	<p>iPad (Early Literacy)</p> 	<p>Use an iPad with various applications (apps) to introduce early literacy concepts, teach cause and effect, assist with communication, practice fine motor skills, and learn daily living tasks.</p>	
<p>Learning/Cognition</p>	<p>A Cuddle for Little Duck (Early Literacy - Book)</p> 	<p>A Cuddle for Little Duck book describes a cheeky, charming ball of yellow fluff that has a busy day ahead - so come along on a day packed full of small discoveries and big wonder. This board book is written in English with Braille to support the development of early literacy for infants and toddlers who have various disabling conditions.</p>	
<p>Learning/Cognition</p>	<p>Colored Overlays (Early Literacy)</p> 	<p>Colored Overlays are transparent sheets of tinted plastic available in different colors that change the way light hits the retina of the eye and the way the brain processes what is on a printed page. Place each overlay on the printed page to find out how the child may improve visual access to the print. Choose from a variety of colors, or a combination of colors, that work best for the child's print experience.</p>	
<p>Learning/Cognition</p>	<p>Noisy Farm (My First) - (Early Literacy-Book)</p> 	<p>The Noisy Farm (My First) board book provides both tactile and auditory feedback while reading. The child can touch, feel, and hear the animals on every page of this sturdy board book for a fun reading activity. Engaging photographs and appealing textures encourage young readers to explore the exciting world of farm animals for an early literacy experience.</p>	
<p>Learning/Cognition</p>	<p>Muffin Pan w/Pom Poms or Ping Pong Balls</p> 	<p>The Muffin Pan with Pom Poms or Ping Pong Balls supports children's ability to memorize the spatial elements of a braille cell. Building letters using a 6-cup muffin pan helps young children to read and write braille code. These products can also teach basic literacy skills that</p>	

		identify the top, bottom, middle, left, and right sides of the pan.	
Learning/Cognition	If You Give a Mouse a Cookie Story Box - (Early Literacy) 	If You Give a Mouse a Cookie Story Box provides both tactile and auditory feedback while reading. The story is about a little mouse appearing on a boy's doorstep wanting a cookie and more! The story box was created to increase concrete object identification, joint attention, focus, and appropriate interactions while engaging in early literacy activities with children.	If You Give a Mouse a Cookie and/or Suppertime for Frieda Fuzzypaws
Learning/Cognition	Slant Board - (Early Literacy) 	The Slant Board creates an appropriate reading surface at the optimal 22-degree angle; its two collapsible legs make it portable and discrete for children's use. The folding legs will lock in an extended position making it very stable and then fold flat for compact storage. The plastic clips at the top hold paper securely in place.	
Mobility/Seating	Fisher-Price Sit-Me-Up Floor Seat 	The Fisher-Price Sit-Me-Up Floor Seat has soft fabric and a wide base of support to help a young child comfortably sit up for interaction with others. The Fisher-Price Sit-Me-Up Floor Seat folds flat, making it easy to store or take on trips. It is easy to clean - just remove the seat pad and put it in the washing machine.	2 attachment toys with rings
Mobility/Seating	Permobil Explorer Mini 	The Explorer Mini is a powered mobility solution that facilitates self-initiated movement and early exploration for young children 12 – 36 months of age with mobility impairments. Designed to support development, the Explorer Mini is an ergonomic device with multiple weight-bearing surfaces to help promote safe, stable, upright postures while providing opportunities to improve strength, endurance, and postural control.	
Mobility/Seating	Versa Form Positioning Pillow 	The Versa Form Positioning Pillow is a semi-permanent positioning system that is filled with small styrene beads that mold to the body's shape when air is extracted by the pump. The pillow allows support for all parts of the body, reducing the risk of pressure sores for children, and can be easily used in multiple environments.	Repair Kit and Rubber Ring Replacement Versa Form Pump
Recreation	Bubble Mania	Bubble Mania is a switch-adapted toy that allows a child to see a stream of bubbles when activated. This toy works on battery power only and can be activated with any switch with a ¼ inch	

		plug. It can be used for attention to task, visual tracking, and recreation activities.	
Recreation	Fiber Optic Switch Adapted Light 	Fiber Optic Switch Adapted Light has a shiny gem-filled base with bright LEDs! The light has been switch adapted to accept a standard switch. Colors illuminate and change when your switch is depressed and stop when the switch is released. Great for cause-effect, visual stimulation, learning colors, language skills, and tactile/sensory stimulation.	
Recreation	Spinning Light Show 	The Spinning Light Show is a switch-activated device that features a multicolored array of lights that create an exciting display for children. This device is great for extra somatosensory stimuli, visual tracking, and recreation activities.	
Speech/Communication	7-Level Communication Builder 	The 7-Level Communication Builder, also referred to as 7-Level Communicator allows recordings and playbacks from 1, 2, 4, 8, or 16 different messages per level. There are seven levels for recordings, providing a total of up to 112 messages (in the 16 window setting) at the touch of a button. The total record time is 300 seconds. This device is small, lightweight, and portable for ease of access for those who have difficulty using speech to communicate.	1, 2, 4, 8, and 16 Grids
Speech/Communication	BIGmack 	The BIGmack is an excellent switch choice for children with visual impairments and physical disabilities who require a larger target area. The BIGmack has a 5 inch activation surface. Record any single message up to two minutes in length and press its activation surface for playback. Connect a toy or appliance for additional motivation and functionality.	1 Cable and Instruction Book
Speech/Communication	SymbolStix SQUARES 	The SymbolStix SQUARES support communication, comprehension, choice-making, and literacy in the classroom, therapeutic or home setting. The SymbolStix SQUARES are 2 inch by 2 inch with clear concise pictures. These manipulative cards provide appropriate tactile image support for cognition and learning with children.	Core Vocabulary Set 1
Vision	Lamaze Rainbow Glow Rattle	Shake the Rainbow Glow Rattle from Lamaze and watch three contrasting rainbow shades come and go. The rattle	

		is designed for little hands. It has an easy-grip handle, broad base, soft and curvy edges make it fun as well as safe. The Rainbow Glow Rattle is designed to take children through key developmental stages, engaging vision, auditory, and motor skills.	
Vision	Light Box 	The Light Box is a portable box with back lighting for teaching shapes, object identification, writing skills, and arts and crafts activities with children. It is designed with a raised front edge to keep objects in place and the box has adjustable feet for personalized angling.	Instruction Book, Rechargeable Batteries, and AC Adapter Transparent Overlays (1 Clear, 4 Colored, and 1 Clear Flexible Plastic Sheet) Plexiglass Spinner & Patterns (3 Sets of Spinners with 1 Base)
Vision	Touch and Match Board 	The touch and match board have 12 different counter textures with a corresponding textured surface on the board! Easily match the textures by touch or sight. This touch and feel matchboard helps develop sensory tactile skills, motor skills, visual skills, language, and reasoning skills.	
Vision	Uncle Goose Nemeth Braille Blocks 	The Uncle Goose Nemeth Braille Blocks are educational toys for children to learn Braille for effective communication skills. Each block has embossed numbers on two sides to touch and learn braille code. Children will learn these skills while having fun.	
Miscellaneous/Tool	Notching File 	A notching file is a tool used to puncture a hole in a device's battery compartment door to allow a battery adapter to easily be placed in the battery compartment. This tool is used to adapt toys for switch compatibility.	(Not Available for Loan)
Miscellaneous/Tool	25-Piece Mini Tool Kit 	The multipurpose, 25-piece Mini Tool Kit is used to change batteries, adapt toys, and tighten loose parts of AT equipment.	(Not Available for Loan)
